Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/811,173	<b>Applicant(s)</b> IVES, JOANNE BEAN	
	<b>Examiner</b> Gay Ann Spahn	<b>Art Unit</b> 3635	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 26 March 2004.
- 2a) ☐ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) ☒ Claim(s) 1-38 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☐ Claim(s) \_\_\_\_\_ is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☒ Claim(s) 1-38 are subject to restriction and/or election requirement.

#### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \*    c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

## **DETAILED ACTION**

### ***Election/Restrictions - Election of Species Requirement***

This application contains claims directed to FOUR GROUPS OF SPECIES from each of which Applicant must elect a single species.

The FIRST GROUP OF SPECIES (i.e., species of cargo transportation apparatus) from which Applicant must elect a single species is:

GROUP I, SPECIES I - trailer;

OR

GROUP I, SPECIES II - truck.

The species are independent or distinct because a trailer and a truck are mutually exclusive types of cargo transportation apparatus.

If Applicant elects GROUP I, SPECIES I (i.e., trailer), then Applicant must elect between SUBSPECIES, as follow:

GROUP I, SPECIES I, SUBSPECIES I - horse trailer;

OR

GROUP I, SPECIES I, SUBSPECIES II - motorcycle trailer.

The subspecies are independent or distinct as being mutually exclusive types of trailers.

Art Unit: 3635

The SECOND GROUP OF SPECIES (i.e., species of fastening system) from which Applicant must elect a single species is:

GROUP II, SPECIES I - snap-type fasteners;

GROUP II, SPECIES II - zipper-type fasteners;

OR

GROUP II, SPECIES III - channel-type fasteners.

The species are independent or distinct as being mutually exclusive types of fastening systems.

The THIRD GROUP OF SPECIES (i.e., species of sealable opening) from which Applicant must elect a single species is:

GROUP III, SPECIES I - door;

OR

GROUP III, SPECIES II - window.

The species are independent or distinct as being mutually exclusive types of sealable openings.

The FOURTH GROUP OF SPECIES (i.e., species of material for wall structure) from which Applicant must elect a single species is:

GROUP IV, SPECIES I - flexible material;

OR

GROUP IV, SPECIES II - rigid material.

Art Unit: 3635

The species are independent or distinct as being mutually exclusive types of material for wall structure.

If Applicant elects GROUP IV, SPECIES I (i.e., flexible material), then Applicant must elect between SUBSPECIES, as follow:

GROUP IV, SPECIES I, SUBSPECIES I - flexible plastic material;

OR

GROUP IV, SPECIES I, SUBSPECIES II - flexible mesh material.

The subspecies are independent or distinct as being mutually exclusive types of flexible wall structure material.

If Applicant elects GROUP IV, SPECIES II (i.e., rigid material), then Applicant must elect between SUBSPECIES, as follow:

GROUP IV, SPECIES II, SUBSPECIES I - rigid plastic material;

GROUP IV, SPECIES II, SUBSPECIES II - rigid aluminum material;

OR

GROUP IV, SPECIES II, SUBSPECIES III - rigid composite material.

The subspecies are independent or distinct as being mutually exclusive types of rigid wall structure material.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is

finally held to be allowable. Currently, independent claims 1 and 20 appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call to Applicant to request an oral election to the above Election of Species Requirement was not made due to the complexity of the election.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gay Ann Spahn whose telephone number is (571)-272-7731. The examiner can normally be reached on Monday through Friday, 10:30 am to 7:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard E. Chilcot can be reached on (571)-272-6777. The fax phone

Art Unit: 3635

number for the organization where this application or proceeding is assigned is (571)-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
